

JCB LANDSCAPE RAKE

JCB Landscape rakes are excellent tools for cleaning up debris, road and driveway maintenance, seedbed preparation, de-thatching/ de-foliating, rock picking/ clearing, and finish grading.

FEATURES

- Hydraulic power rake can rotate 20 degrees from center in either direction allowing material to be moved left or right.
- Bi-directional movement allowing forward and backward raking capability.
- Adjustable end plates allow the power rake to perform like a box scraper.
- Adjustable barrier bar above the roller lets you choose the size of material left in the seedbed.
- Dual adjustable gauge wheels lets the operator choose setting for skim passes for over-seeding—or—adjust to cut drainage grades.
- Triple-Sealed and shielded bearings for extra protection and long life.
- Carbide tooth design for long life.
